Current Challenges in Water Containment Solutions

-  **Slow & labor-intensive** – Traditional liner installation takes too much time.
-  **High costs & risks** – Weather conditions, soil issues, and on-site fabrication increase expenses.
-  **Material waste** – Cutting and adjusting liners on-site leads to excess waste.
-  **Limited growth potential** - High stock costs and long project lead times restrict your scalability and opportunities.

Find the solution inside.

A Smarter, Faster, and More Profitable Business Model

Prefabricated Liners – Revolutionizing Installation for big ponds

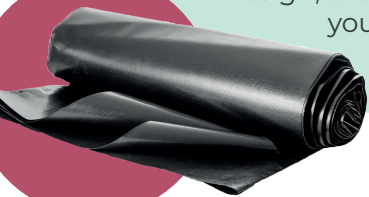

Familiar with prefabricated houses? Now the same benefits come to liners too!

TRIUS Aqua RPE liners can be custom-made up to 5000 m² and delivered ready for installation.

Faster, easier, and more cost-effective: Design, order, we deliver, and you install in **5x less time.**

Product for custom needs

Lotus Box – A Pond in a Box for garden ponds

Off-the-shelf product

Don't just sell pond liners and geotextiles — sell a complete pond! A DIY solution for smaller garden ponds, featuring:

- **All-in-one kit** – Everything needed in a single box.
- **AR application & guides** – Helping customers build their pond with ease.
- **Guaranteed satisfaction** – No guesswork, just results.
- **Perfect for Resellers:** Effortless handling, seamless logistics, and excellent cross-selling opportunities!

A Ready-to-Use, Localized Website

The website, adapted to each partner's language, allows customers to easily design & order liners. Works just like an e-commerce store, making complex projects simple.

Innovative Custom Designer App

Enables both simple rectangular liners and complex, custom-shaped liners in an intuitive way (also for geotextiles!). Customers and installers can configure their ideal liner shape and size in minutes.

Multiple Revenue Streams & Exclusive Market Rights

Grow your own business with prefabricated liners and Lotus Box.

Scale and sell directly to customers and through resellers, expanding your reach.

Be the only partner in your country, gaining exclusive access to a growing market.

Robust & Professional Infrastructure

A **highly efficient supply chain** ensures smooth ordering, production, and delivery. Our **business model is proven and optimized**, giving partners all the tools needed for success. **Full support and resources** – including marketing, training, and step-by-step guides.
